PROPOSED CLAIMS

1) A fishing rig comprising:

a weight having a smooth elongated cylindrical body of all metal construction that is about 24 times longer than it is wide,
said body has a first end and a second end,
said body is rounded at both ends,
said body having a substantially shorter angled portion terminating in said first end with an attachment hole adjacent said first end, and a longer straight portion joined to said angled portion and terminating at said second end,
an O-ring attached to said attachment hole,
a swivel attached to said O-ring,
whereby, a line can be attached to said swivel such that said fishing rig can be fished in stump and bush laden areas.

2) The fishing rig of claim 1, wherein said weight is 6 inches long and .25 inches in diameter.

3) The fishing rig of claim 1, wherein said weight is made from iron.

4) The fishing rig of claim 1, wherein said weight is about 1.5 ounces in weight.

5) The fishing rig of claim 1, wherein said attachment hole is .125 inches in diameter and resides .0625 inches from a tip of said first end.

6) The fishing rig of claim 1, wherein said swivel is a 1 inch swivel.
